Open Face Opens Possibilities - StoreSMART's Newest Visual Management Tool

ROCHESTER, NY, Nov. 31, 2018 -- Organize, track, and display information with **Open Face Frame Document Holders**, the latest in StoreSMART's robust line of visual management tools. Proudly manufactured in the USA, the novel open face design of this utilitarian vinyl pocket opens up new possibilities.

The two 1" side pockets hold pages securely on the edges, and a convenient open face center make retrieving and changing your information fast and easy. It has an impressive capacity to hold up to ten letter-size sheets at a time. These sturdy vinyl 8 ½" x 11" frames (with either magnetic or adhesive backs) can be easily incorporated into a Lean/Six Sigma or visual management whiteboard, or transform the side of a file cabinet into a productive work area. Also available in 11" x 17" format.

"The open face center opens up countless possibilities for uses at home, office, warehouse, or in a manufacturing setting," says Reenie Feingold, owner of StoreSMART, a global leader in visual management and office solutions.

"Now you can write directly on pages without taking them in and out of the pockets each time. No more messing around with dangling clip boards and curled up paper for sign-in sheets or cleaning logs. You can also change out new ads, or update posted information like menus or work schedules in a jiffy. The applications are unlimited.

In fact, a hospital uses the Open Face on the front of a medication refrigerator where the medications are closely monitored and have to be signed in and out. Before the Open Face, the tracking sheet was hung on the front with a magnetic clip."

And when you're done organizing your business and professional life, the Open Face Frame Document Holders are also convenient for home use—to hang a child's artwork on the fridge, or keep track of home records (grocery lists, chore tasks, etc.)

The **Magnetic Back Open Face Frames** easily magnetize to dry-erase white boards, filing cabinets, metal desks, refrigerators, and metal machine surfaces. Turn the side of a file cabinet into a productive work area, or incorporate the frames into your Lean/Six Sigma and visual management displays.

The **Peel & Stick Adhesive Open Face Frames** stick on any surface. Turn the wall of your cubicle into a productive work area, insert a calendar on your desk top, place a sign-in sheet at the reception area, track cleaning logs on a wall or door of a washroom. Place them on a warehouse wall to sign-in deliveries or track productivity.

StoreSMART has been creating and marketing quality products and services for storage, organization, display, filing, and distribution since 1971. The StoreSMART catalog is brimming with new products to help everyone get—and stay—organized. For more information, visit StoreSMART.com or call 800-424-1011.
